In small groups this week, we will be reading leveled plays. As the week moves on we will turn our focus to poetry, working to identify the structural elements of poems.

In Math this week we will be representing patterns using arrays to multiply by 10, 100, and 1,000. Using the area model we will be multiplying two-digit multiples of 10 by two-digit multiples of 10.

We will use character traits, actions, what other characters say, descriptions, goals, and accomplishments to write a final draft of our character sketch for Wali Dad.

Students will finish their Google Slide presentations about their biomes, and share those presentations with the class.
