

Week at a Glance

Week of March 14, 2016

Dates to Remember

March 21 - 23, 2016 – Hearing and Vision Screening, 9:00am – 3:00pm

March 21, 2016 – Musical Theater Performance, APR, Grades K, 3 and 5, 2:00 p. - 3:30pm

March 22, 2016 – Musical Theater Performances, Grades 1, 2, and 4, 2:00pm – 3:30pm

Evening Performance, 7:00pm – 8:30pm

Reading

We will continue to work in literature circles to read our novels. We will also be reading informational articles to identify problem and solution.

Math

In Math, we will be adding and subtracting fractional lengths to solve measurement problems. We will also work on representing and interpreting measurement data (halves, fourths, eighths of a unit) using line plots.

Writing

This week, we will write a myth using one of the story starters they will be given. Students will need to make sure the story is written from the point of view of the given character.

Vocabulary

This week we will continue learning prefixes and how to use prefixes to identify what a word means. Each day students will be assigned work to be turned in on Friday. They may need to finish up vocabulary work at home. You will find the assignment page in their binders for the week. This week we are working on the prefix “bi”.

Science

We will begin our unit on matter and will investigate how all matter takes up space and contains a certain amount of material. We will also describe the relationship between the mass of a whole object and the sum of its parts.
