

Week at a Glance

Week of April 25, 2016

Dear families,

I hope you all enjoyed another beautiful weekend (well, at least 1.5 days were nice)! We are speeding towards the end of the school year! Report cards were spent home at the end of last week. If your child did not bring theirs home, please ask them about it. If there is an issue, email me.

This week we have no school on Tuesday (elections), and on Friday we will take our annual trip to St. Mary's City. **ON FRIDAY, please make sure your child is at school at 7:45am and that you are at school to pick them up NO LATER THAN 4:30pm. Each child should bring a bag lunch and make sure they are dressed appropriately for the weather. You may also want to send a snack with your child for the trip there and the trip home.** If you have any questions about the trip, please email me.

Have a great week!

Mrs. Longest

Reading

We will read leveled texts about rocks and minerals which will tie into our study of rocks in science. We will focus on using context clues to identify words we don't know.

Math

We will continue our unit on geometry by adding adjacent angles to identify an unknown angle. We will also identify triangles by their sides and angles.

Writing

We will begin to revise and add more detailed information for our newsletter from marking period 3.

Vocabulary

We will continue learning prefixes and how to use prefixes to identify what a word means. **Each day students will be assigned work to be turned in on Friday.** They may need to finish up vocabulary work at home. **You will find the assignment page in their binders for the week.** This week we are working on the prefixes "counter" and "contra".

Science

We will continue our study of the three types of rocks and the rock cycle.
